

RECRUITER PATCH PROGRAM AVAILABLE

For Cub Scouts, Boy Scouts & Venture Scouts

First Award

Scouting's best recruiters are Scouts and parents who are enthusiastic about scouting and their recent adventures. With a steady flow of youth into a scouting unit comes a renewed energy and enthusiasm that are essential in maintaining the unit's health and well being.

With this in mind, a recruiting incentive plan for Scouts is currently in place. This plan features the **BSA RECRUITER** strip, a specially designed collector's edition recruiter patch from the National Council, BSA and a council **Recruiter CSP**. The patches are available for any current member who recruits new Scouts into our program. Youth recruited during school roundups & Second Year Webelos transferring to a troop do not count as new scouts.

The specialty patches cannot be ordered through the supply system.

Second Award

The RECRUITER'S patch program has been developed to encourage our current scouts to proudly invite their best friends to join their unit. Surveys indicate 30% of non-Scouts would like to join scouting if someone would simply ask. Think of the impact on our society if we could have more youth taking advantage of the BSA's character development programs.

Third Award
