

**Webeloree 2023**  
**“Webelos of the Round Table”**  
**March 24-26**  
**Camp Charles**  
*8396 Boy Scout Rd, Bailey, NC 27807*

This is the information packet for the 2023 Webeloree. Contained in this packet is the information and forms to prepare your Webelos for the Webeloree. This year’s Webeloree is the “Webelos of the Round Table”. All the events will be geared toward medieval times.

The cost per person (youth and adults): \$ 10.00

The cost will be same regardless if you stay the whole weekend, one night, or just for the day.

Registration will be done via Tentaroo located at <https://www.eccbsa.org/event-flyers/>

The Toisnot Chapter of the OA will be running the Trading Post. The Trading Post will have drinks, snacks, and a variety of other items for sale.

---

**TEAM Events:**

There will be no ‘advance notice’ on exactly what the Team Events are going to be. None of the Team Events will require any advance training or knowledge. The Webeloree has been aimed at Webelos working as teams. If there is specific knowledge that the participants will need, they will be taught it at the station prior to the start of judging. Webeloree is a fun camping trip, not a “final exam”. **Exception:** there IS going to be the traditional ‘fire building’ event. Make sure all of your Webelos know Fire Safety!

All Team Events will be 25 minutes (Webelos enter area, complete event, cleanup, and leave within 25 minutes) and 5 minutes for travel between stations. All Scout Teams move between stations simultaneously. All Morning Events start at 9am, conclude around Noon. All morning events are ‘divided patrol’ based. (All Webelos divided into equal size Patrols with no Pack affiliation)

All Team Events will be led by Scouts BSA Troops.

---

## **Pack Events:**

Afternoon events will be Pack-based, Staff conducted. (Volunteers Welcomed!) Pack Events will be conducted throughout the day.

### Uniform Inspection:

(Saturday Morning)

Conducted per official Webelos Uniform Inspection Form. All scores will be averaged for the entire pack, using the number of Scouts on the Final Roster.

### Dutch Oven Event:

(Saturday afternoon)

Participating Webelos Leaders and/or (Asst) Cubmasters will make a complete recipe in a Dutch Oven from scratch (ie: Apple Crisp apples = pre-peeled apples in a bag...not the entire mix of apples, brown sugar, oatmeal, etc. in a bag)

The theme for the dutch oven cook off is "**wild game**". The main ingredient must be meat from a wild animal (no domesticated animals) can include deer, wild caught fish, wild duck, etc...

If enough Scouts BSA patrols wish to compete I will open up a Scout Dutch oven cook off. Only youth members will be allowed to compete. The above rules also apply.

### Campsite Inspection:

(Saturday afternoon)

Campsite to be inspected for neatness / cleanliness and organization (no set pattern, just that there IS a pattern) See the attached Campsite inspection form.

### Webelos Pack Events:

The Webelos pack event is going to be catapult. Be a three part event: 1) Looks 2) Total distance 3) Accuracy. See information in the packet about the catapult events.

Special Program:

To be announced

Campfire Skit/Song/Story:

Scored by anonymous judges on Crowd Appeal and Performance Skills. An Arrow of Light Ceremony / Cross over ceremony for those Webelos who are crossing over or about to cross over will be provided at Saturday night Campfire.

If you have any questions, please contact me by any of the methods listed below.

## **Catapult Event:**

Only three types of catapults will be allowed in this competition.

- **Torsion**: A torsion catapult, or mangonel, is a type of catapult used frequently in Medieval siege warfare. The mangonel works by twisting up a rope as tight as possible on the end of a throwing arm. When the torsion in the rope is released, the throwing arm shoots whatever it is holding with great speed and power
- **Trebuchet**: Trebuchets uses counterweight which pulls down a lever arm, launching it up into the air. A sling is attached which then released the projectile. Trebuchets are generally capable of hurling great amounts of weight and became much more common in medieval warfare in later years
- **Traction**: Traction catapults were lever-based machines designed by ancient engineers to operate quickly and be very accurate. When a human operator pulled down on a lever, the catapult hurled a rock much farther than a person could hope to. The weight of the rock that could be thrown by the catapult was much greater than any human could manage on their own.

Rules:

- NO METAL TENSION SPRINGS ALLOWED
- Each catapult needs to be operated by the Webelos with an adult leader's help. There will be no adults operating the catapult by themselves while the Webelos sit and watch.
- The catapult must be able to be carried by 2 Webelos scouts a distance of 100 feet.
- We will be launching tennis balls
- Helmets, safety glasses / goggles, and gloves must be worn by everyone working around the catapult. (provided by your Pack)
- Pictures must be provided showing that the Webelos scouts worked on putting the catapult together.

Competition:

Round 1: Looks: Each catapult will be judge on workmanship and design. A panel of judges will decide the winner

Round 2: Distance: Each Pack will get to launch a tennis ball four times. Each of the four shots will be added together for a total distance.

Round 3: Accuracy: Each pack will launch one ball into the field. The other three balls will be launched trying to land as close as they can to the first ball.
